Windows Server 2012 64-bit

Windows Server 2012 R2 64-bit

### 2. Driver Versions

v4.0.0.4

### 3. Installation

1. Before running the Setup program, please unplug the reader first.

2. Double click the "Setup.exe" program icon to launch the installer. If your system does not have installed Windows Installer 2.0 or above, you will receive a warning message and you need to go to Windows Update to update your system.
3. Follow the on-screen instructions to install the driver to the system.
4. After the installation is completed, please plug the reader to the system.
5. To remove the driver, please go to "Add or Remove Programs" in Control Panel.
